“AGEs in Chronic Diseases of Aging and a Paradigm Shift”

Presented by:

Helen Vlassara, MD

Professor of Medicine, Molecular Medicine and Geriatrics
Director, Division of Experimental Diabetes and Aging
Mt Sinai Chair on Diabetes and Aging
Mt Sinai School of Medicine, New York, NY

Monday, March 18th, 2013, from 12:00 PM – 1:00 PM
HPNP Building - Classroom 1101

Classroom is one floor up, on the east side of the HPNP lobby.

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Identify a major source of oxidants and pro-inflammatory agents and how they contribute to major age related diseases,
2. Recognize the role of innate defense loss in aging and chronic diseases,
3. Identify novel strategies that prevent and/or intervene with these health problems.

Dr. Vlassara has disclosed that she has received grant support from Sanofi/Genzyme, Inc. No one else in a position to control the content of this activity has any financial relationship(s) to disclose.

Continuing Education Sponsors:
