“Microvascular contributions to age-related cognitive decline”

Presented by

Zoltan I. Ungvari, MD, PhD

Tuesday, December 3, 2019
12:00 pm to 1:00 pm

Clinical and Translational Research Building
2004 Mowry Road
Conference Room 2161

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Define and describe vascular mechanisms contributing to age-related cognitive impairment.
2. Identify clinical significance of microvascular dysfunction.
3. Compare therapeutic interventions aimed at reversing age-related microvascular alterations and improving cerebral blood flow.

Dr. Ungvari has disclosed no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.
