Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Explain the role of senescent cells in aging and age related disease.
2. Discuss the potential of senolytics in treating age-related diseases and chemo-/radio-therapy caused adverse effects.
3. Summarize some of the approaches in developing senolytics.

Dr. Zheng has disclosed financial interest as a consultant and stock shareholder of Dialectic Therapeutics. No one else in a position to control content has any financial relationship(s) to disclose.
